

I am writing to request that Air 1 Radio remain on the air! 90.1, 89.5 and 100.7 are the station in my area. This station is a very positive influence alternative for teens as well as adults today. With all the junk that is on the radio, this station is very uplifting and a blessing to have a station that you not afraid of something provocative or vulgar being said. Please see that this station remains, as it is the main station that my family and many others enjoy listening to daily. Thank you, and God Bless!
